

### Bike Lane Closures along Highway 101

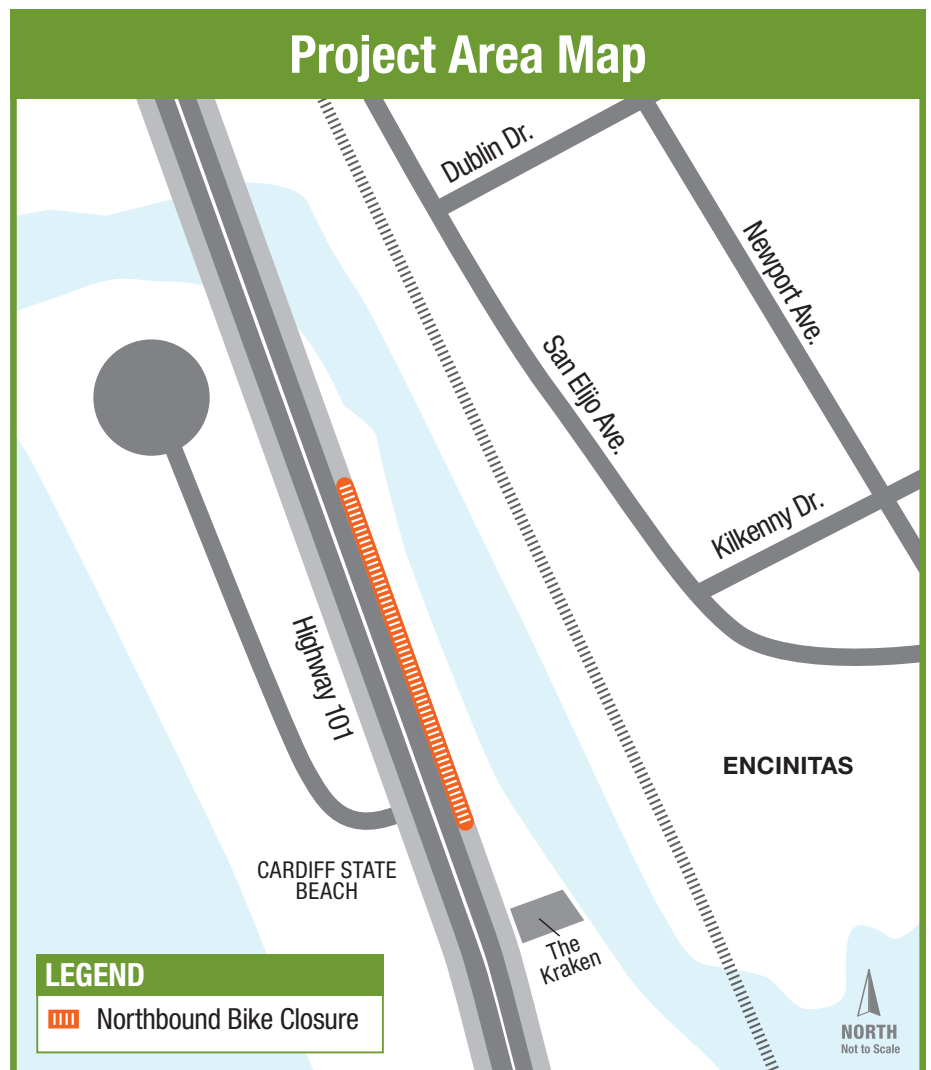

As part of the San Elijo Lagoon Restoration Project, crews will close a section of the northbound bike lane along S. Coast Highway 101 in the City of Encinitas. The closure will begin just north of the Kraken (2531 S. Coast Highway 101) and will extend approximately 500 feet. **The closure will go into effect on Monday, February 4, 2019 and is anticipated to remain in place until early July.**

During the closure, **cyclists traveling north will be encouraged to use the northbound lane of S. Coast Highway 101 and merge with motorists.** Advance signage will be placed to alert cyclists and motorists of the modified lane configuration. Cyclists and motorists are encouraged to **share the road and obey all traffic signs and laws.**

Temporary lane closures are also planned for this area of northbound S. Coast Highway 101 between February 4 and February 6 to allow crews to place concrete barriers.

The closure is necessary for crews to excavate the west basin of the San Elijo Lagoon. This work will extend from the lagoon inlet towards the lagoon's southernmost point near Solana Beach and enhance tidal flow and the overall health of the lagoon.

**Nearby residents and businesses may experience noise associated with the lagoon excavation. Crews will be conducting work during daytime hours and may conduct work on Saturdays, as needed.**

Continued on reverse.

## Bike Lane Closure Notice

### About the San Elijo Lagoon Restoration Project

The restoration project is being coordinated with the San Elijo Lagoon Conservancy and resource agencies. Lagoon restoration will enhance wetland and upland areas, improve tidal flushing, and include beach sand replenishment. During construction, limited access to lagoon trails is anticipated. For more information on lagoon trail closures, visit [SanElijo.org/Trails](http://SanElijo.org/Trails)

### About the San Elijo Lagoon Conservancy

San Elijo Lagoon Conservancy is the Southern California nonprofit land trust for the 1000-acre San Elijo Lagoon Ecological Reserve. Its vision is a world where biodiversity is protected, and people act to conserve nature and embrace it as central to a healthy community.

### About Build NCC

Build NCC is a collaborative effort between SANDAG, Caltrans, and United States Department of Transportation. The first phase of construction is in the cities of Solana Beach, Encinitas, and Carlsbad as part of the North Coast Corridor Program. Build NCC includes extending the existing carpool lane on I-5 in each direction from Manchester Avenue to State Route 78, double tracking the rail line and replacing the highway bridge at the San Elijo Lagoon, restoring the San Elijo Lagoon, and constructing nearly seven miles of new bike and pedestrian trails. Construction on Build NCC began in early 2017 and will be complete by 2022.
